- **Why**
 - SNs are **driving** the new and future needs for Web interoperability
 - W3C: play important **harmonising** role
- **What**
 - Big Picture Roadmap towards SN Interoperability
 - Data Portability
 - Identity Portability
 - Policy Portability

Plan

- **Develop Charter with:**
 - **Internal: SW, PLING, Mobile, I18N, WAI...**
 - **Invite (many) external community (leaders)**

- **A SN for Social Network Interoperability Drivers**
- **Events:**
 - **W3C Future of SN Workshop (Jan 09)**
 - **(Proposed) SN Interoperability Workshop at WWW2009 (April 09)**

Summary...

- **Social Networks Interoperability XG**
 - **Road Map Planning**
 - **Bring Community Together**
- **Potential Need for IGs to work on “potholes”?**
 - **In parallel?**
- **Your input and comments wanted!**
